Some more faculties, practical experience of counseling

Kindly provide a whole separate semester just for internship as juggling between various tough subjects such as research, practicals and internship and providing data regarding the same in the same semester was extremely difficult and taking a toll on almost all the students in the batch.

More exposure towards the field

More inclination should be given to practical knowledge

I am happy to be a part of this college. teachers are very helpful all the time. Our teacher help us to grow up and help us to understand all the situation.

To understand the students perspective, To help them to find their internships process, Give some frequent breaks to students after the internal/assignments submissions.

I found all our teachers was really helpful loving caring and also friendly in every single path

Keep a student to check the regular assignments and help in guiding other students who were not aware and also give a brief of information of small details before any event in college and exams related to preparation.

This college is amazing and i get very well experince from here but ..In fy.bcom i have very good marks but in sybcom i cant manage it beacause my daddy is recently paases away so teachers also not understanding and fail me in subjects otherwise in thi clg i am from 11th sndt is the best clg...but some of my reason i dissappointed

Non

Neatly explain every topic

Was very helpful and was great to overcome my weakness by teachers help Thank you

Great

Should revise the topics again for revision.
Using graphical concept in ppt and teaching them in innovative way.

According me I find every skills and teaching from teachers are prefect and even suitable for us I am happy with my teachers teaching and sharing ideas related career

Teachers teaching ways are good , it doesn't need any improvement.

PC quality needs to be improved

Syllabus can be more interesting.

1.Sometimes teachers come late for the lecture.so teacher should improve that.
2.Many times classes are occupied by other course students,because of this we have to wait and find other class for our lectures.Management should allocate classes before the lectures start.

- 1.Great facilities
- 2.Teachers are too familiar with students
- 3.happy with my course

Teachers are good

Learning experience is also good

To evaluate more examples to explain any topic, It means easy to understand student

Thankyou

Give to me opportunity

The following are the observations:

1. In my opinion, I say that while teaching teachers should give different types of example so that student can understand.
2. Secondly, I would like to say teachers should take weekly test.
3. And lastly, I would like to say that teachers should ask specially questions to those students who are weak in that particular subject and teachers should guide them specially and focus on them more.

Very nice

.....

Ask to students that they were understanding what teachers are teaching

Internship give us in the 1st otherwise 2nd yr.

Coordination

To give more examples while teaching any point so that we can get the point clear

Teachers are enthusiastic

Devoted

Straight forward

It's nice clg

Our teacher is best at their teaching way so I don't think there is need for improvement because everything is very well

Teachers are just so helpful

Syllabus completing on time no more quickly and no delay
If going fast that's is reason students can't understand anything

To make easy to understand
To be more advance and solution finding
To encourage and helpful to students

From my perspective, learning experience in my institution to too good as compared to others because it is providing too much facilities to the students .
