

## CENTRAL FACILITIES

1. Well-equipped library with periodicals/journals/reference books/computers  
The collection of library supplements the classroom teaching with various learning resources / information sources. E-books and other online resources are accessible anywhere, anytime even on mobile phones. We make the students capable of getting required information through physical and online sources of information with the help of user education programmes. Thematic displays and Annual library programme are arranged to make fullest use of available information sources and also inculcate reading habits. We also offer special facilities and services to financially weak students to complete their education.
